Policy Statement

VisVira Limited are Low Code-No Code and Data Insights experts. Based in Cardiff, we aim to delivery process and transformation IT changes to both the private and public sectors.

Offering a range of Development and Consulting Services across many industries. We partner with clients to develop engaging solutions, business process and application modernisation solutions as part of wider Digital Transformation Programmes.

We recognise the impact that we have on our surroundings and our environment. In all of our activities, working practices and business relationships, we will continuously work towards protecting, conserving and enhancing all aspects of our environment over which we have control or can influence.

To achieve this, we operate a Sustainability and Environmental Policy that meets the requirements of IS 14001:2015 and have set ourselves the following aims:

We are committed to:

- Complying with, or where practicable, exceeding all legislative regulatory and other requirements appropriate to our business model.
- Identifying the significant environmental impacts of our Company's activities arising from raw materials, products, processes, waste and services provided, and to setting realistic environmental objectives.
- Continuously improving the environmental performance of our Company by setting environmental objectives, targets and supporting programmes.
- Environmental Sustainability to promote optimum and efficient use of resources and energy.
- Working towards the reduction or elimination of any actual or potential pollution.
- Raising awareness and understanding of all staff about the Company's environmental policy and maintaining awareness of environmental issues and related matters by communicating this policy statement and any environmental issues via email or company communication method.
- Providing the interested parties with relevant and appropriate information and establishing open and ongoing dialogue with persons having a bona fide interest in the Company's activities.
- Establishing action plans to improving our environmental performance, monitoring these results and taking appropriate actions.

This Sustainability and Environmental Policy will be reviewed annually and updated as necessary. The Management Team endorses these policy statements and is fully committed to their implications.
